

FLORIDA SCRAMBLE TEAM COMPETITION

All four players will hit a tee shot and then the team will select which ball to play. The player whose shot is selected **CANNOT** hit the next shot. Only the other three golfers can hit the next shot. This format shall continue until the ball is on the green (the fringe is not on the green). Once the ball is on the green, all four players can putt.

All four players must use three tee shots.

All usual rules regarding a scramble will apply; i.e., must play within one club length of the selected ball, no nearer to the hole; a ball in the rough/sand must stay in the rough/sand.

TIE BREAKERS

All tie breakers in the Florida Scramble Completion will be decided by looking at the team score starting with the most difficult hole on the course. The team with the lowest score on that hole wins. If there is a tie, the second most difficult hole on the course will control the outcome. This will continue until the tie is broken.
